

Website build brief

An immersive, bilingual (English and Arabic) website. Written for Claude Code.

Owner	Muhsin Aden, founding coordinator
Version	1.0, September 2026
Status	Ready to build

Founded in Madinah, serving all of Saudi Arabia

تأسست في المدينة المنورة، وتخدم جميع أنحاء المملكة

0 How to use this brief

This document is the single source of truth for the build. It defines the experience, pages, brand, copy, forms, stack and acceptance criteria. Read it end to end before starting.

Hard rules for the builder

- Use only the copy in section 6. Do not invent statistics, partner names, testimonials, licences, prices or contact details.
- The society is in its founding stage. Never describe it as registered, licensed or government-endorsed.
- Every page exists in English and Arabic, with full right-to-left layout for Arabic.
- Every animation has a reduced-motion fallback that shows the final state.
- Build in the phases in section 11 and stop for review at the end of each phase.

A ready-to-paste starter prompt is in section 13.

1 Project summary

East to West Development Society is a professional community founded in Madinah and serving all of Saudi Arabia. It connects Saudi graduates and international Muslim graduates with each other and with businesses, so that networking turns into skills, jobs, contracts and startups. It is two-sided: graduates on one side, businesses (B2B) on the other, with universities as hosts and partners.

Site purpose: make the vision feel real and ambitious, and convert four audiences into applications and enquiries.

Audience	Primary goal on the site	Conversion
Graduates (Saudi and international)	Understand benefits, see the journey, join	Membership application
Universities and colleges	See what a campus chapter brings, host one	Partnership enquiry
Business sponsors	See options and impact reporting	Sponsorship enquiry
Businesses (networking, speaking, hiring)	Take a seat, speak, hire	Collaboration enquiry
Everyone	Follow the founding journey	Newsletter / WhatsApp community sign-up

2 Experience concept: "The Bridge"

The whole site is a crossing. The brand mark is a bridge arch built from 13 blocks: green blocks for the East, gold blocks for the West, meeting at a pale keystone. The home page is a scroll story in which that bridge is

built, crossed and then opened to four audiences. Motion should feel calm, weighty and precise, like stone being set, never bouncy or playful.

Design principles

- **Built, not decorated.** Motion always means something: blocks assembling, paths connecting, cycles turning.
- **Two shores, one bridge.** Visual pairs (graduates and businesses, East and West, English and Arabic) recur throughout.
- **Quiet confidence.** Generous space, few colours, strong type. No stock-photo clichés.
- **Content first on small screens.** Most visitors will be on phones, many via WhatsApp links.

3 Home page scroll story

Scene	What the visitor sees	Interaction and motion	Reduced motion
1. The keystone (hero)	Dark basalt screen. Arch assembles, title and tagline appear. Scroll cue.	Blocks rise one by one alternating from both ends inward (0,12,1,11 ...); keystone drops last with a soft settle. Total ≤ 1.8 s. Title fades up after keystone.	Arch and title shown complete.
2. Two shores	Split screen: Graduates (left, green) and Businesses (right, gold). Short benefit lines on each side.	On scroll, a thin gold line draws across the centre joining the two sides.	Line shown complete.
3. Three pillars	Cooperation, Innovation, Integration with bilingual titles.	Pillars rise in sequence as the section enters.	Static.
4. The flywheel	Cycle: More vetted graduates → More businesses join → More jobs, contracts, deals → More sponsorship, reputation. Centre: East to West, trust + data.	Scroll-linked rotation of an arrow ring; active node highlights in turn. Nodes are readable text, not images.	Static diagram, all nodes visible.
5. What we offer	Nine programme tiles.	Tiles reveal in a stagger; tap/hover shows the one-line description.	All descriptions visible.
6. Six-week challenge	Four steps of the challenge cycle.	Section pins on desktop (≥ 1024 px) and scrolls horizontally through the four steps; on mobile, a vertical stepper.	Vertical stepper.
7. Member journey	Join, Learn, Connect, Build, Earn, Lead.	A path fills as the visitor scrolls, lighting each step.	Path shown full.
8. Across the Kingdom	Simplified map of Saudi Arabia. Madinah marked as founding city; Jeddah and Riyadh shown as 'next chapters'.	Madinah pulses once; lines extend to next chapters; subtle arcs extend east and west beyond the border to suggest alumni abroad.	Static map.
9. Four doors	Four large cards: Graduates, Universities, Sponsors, Businesses, each with its CTA.	Cards lift slightly on hover/focus.	No lift.
10. Footer	Name in both languages, 'Founded in Madinah, serving all of Saudi Arabia', links, contact, language switch.	None.	None.

Map: use a simplified, accurate outline of Saudi Arabia from an open-licensed source (for example Natural Earth) and credit it. Do not draw disputed borders or neighbouring country labels. City dots only; no pins with invented data.

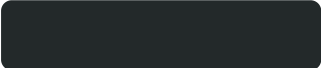

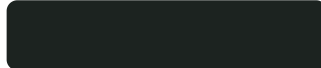

4 Sitemap and page specifications

Routes exist under `/en` and `/ar`. The root `/` redirects by browser language (Arabic → `/ar`, otherwise `/en`). The language switch keeps the visitor on the equivalent page.

Route	Page	Key sections
<code>/</code>	Home	The scroll story in section 3
<code>/about</code>	About	Vision, mission, promise, values, how the two-sided model works, founding stage note, founder note (placeholder)
<code>/programmes</code>	Programmes	Nine programmes with descriptions, grouped: Learn, Connect, Build, Earn. Six-week challenge explained
<code>/graduates</code>	For graduates	Hero, member benefits, member journey, who can join, good to know, apply CTA
<code>/universities</code>	For universities	Hero, what we bring, what we ask, what the university gains, partnership steps, enquiry CTA
<code>/sponsors</code>	For sponsors	Hero, why sponsor, six options, what every sponsor receives, impact reporting, enquiry CTA
<code>/businesses</code>	For businesses	Hero, three ways (networking, keynote speaking, hiring), bring us a challenge, who should join, what you gain, steps, enquiry CTA
<code>/events</code>	Events	Upcoming list (weekly gatherings, keynotes, hiring events, summit). Must handle an empty state gracefully: 'First events announced soon' plus sign-up
<code>/chapters</code>	Chapters	Madinah (founding), next chapters, campus chapters, how a chapter launches
<code>/join</code>	Join and enquire	Tabbed or step form: Graduate, University, Sponsor, Business. Deep-linkable: <code>/join?type=university</code>
<code>/contact</code>	Contact	Contact details (placeholders), general form
<code>/privacy</code>	Privacy	What data forms collect, why, how long, how to request deletion
<code>/404</code>	Not found	On-brand, links home

5 Brand system

Colour tokens

			
basalt-900 #23292A	palm-700 #2E6B52	palm-500 #3C8264	frond-300 #8DB39A
			
date-700	date-500	sage-100	ink-900

#B97F34

#D09A4C

#EEF1EC

#1C2320

The palette comes from Madinah itself: palm groves, dates and the dark basalt lava fields around the city. Gold is an accent only; never set long text in gold on light backgrounds (fails contrast).

```
/* src/styles/tokens.css */
:root {
  --basalt-900: #23292A; /* hero / dark bands (Madinah's volcanic basalt) */
  --palm-700: #2E6B52; /* primary brand green */
  --palm-500: #3C8264;
  --frond-300: #8DB39A; /* muted green text on dark */
  --date-700: #B97F34; /* accent gold */
  --date-500: #D09A4C;
  --sage-100: #EEF1EC; /* page background, keystone */
  --paper: #F7F9F6;
  --ink-900: #1C2320; /* body text */
  --ink-600: #56625C; /* secondary text */
  --line: #C9D3CC;
}
:root[data-theme="dark"] {
  --paper: #171C1C; --sage-100: #1F2626; --ink-900: #E4EAE5; --ink-600: #A3B0A8;
  --line: #34403B; --palm-700: #6FAE8C; --date-700: #D8A55C; --basalt-900: #101414;
}
@media (prefers-color-scheme: dark) { :root:not([data-theme="light"]) { /* same as dark */ } }
```

Typography

Role	Font	Notes
Display (English and Arabic headings, brand name)	Reem Kufi (Google Fonts), weights 500–700	Geometric Kufi; carries both scripts
Body (English and Arabic)	IBM Plex Sans Arabic (Google Fonts), 400/500/600/700	Includes Latin glyphs, so one family serves both languages
Arabic long headings	IBM Plex Sans Arabic 700	Reem Kufi at small sizes loses legibility; use it for short Arabic titles only

Arabic body line-height 1.7 or more; English 1.55. Minimum body size 16 px. Self-host fonts with `next/font` and `display: swap`.

The arch

The arch is the logo and the hero. Build it as inline SVG from the geometry below so it can be animated block by block. The name sits inside the arch: "EAST TO WEST" (Reem Kufi, gold, tracked), "DEVELOPMENT SOCIETY" (small caps, frond green, wide tracking), and the Arabic name beneath.

```
// src/components/brand/archGeometry.ts
// Generates the East to West bridge arch: 13 voussoir blocks.
// Blocks 0-5 = palm greens (East), block 6 = keystone (sage), blocks 7-12 = date golds (West).
export type Block = { d: string; fill: string; index: number };
export function archBlocks({ cx = 500, cy = 390, r1 = 300, r2 = 370, n = 13, gap = 0.012 } = {}):
Block[] {
  const p = (r: number, a: number) => [cx + r * Math.cos(a), cy - r * Math.sin(a)];
  const out: Block[] = [];
  for (let i = 0; i < n; i++) {
    const a0 = Math.PI - (i * Math.PI) / n + gap;
    const a1 = Math.PI - ((i + 1) * Math.PI) / n - gap;
    const [x1, y1] = p(r1, a0), [x2, y2] = p(r2, a0), [x3, y3] = p(r2, a1), [x4, y4] = p(r1, a1);
    const mid = Math.floor(n / 2);
    const fill = i < mid ? (i % 2 ? "var(--palm-700)" : "var(--palm-500)")
      : i > mid ? (i % 2 ? "var(--date-700)" : "var(--date-500)")
      : "var(--sage-100)";
    out.push({ index: i, fill,
      d: `M${x1},${y1} L${x2},${y2} A${r2},${r2} 0 0 1 ${x3},${y3} L${x4},${y4} A${r1},${r1} 0 0 0
      ${x1},${y1}Z` });
  }
  return out;
}
// Render inside <svg viewBox="0 0 1000 400">. Do NOT mirror the arch in RTL:
// green is always on the left (East) and gold on the right (West).
```

Other visual rules

- A thin gold horizontal line (the "road") sits under the arch.
- Section headings are paired: English on the start side, Arabic on the end side, on bilingual cards and bands.
- Numbered circles (green, last one gold) for sequences; dashed connector lines between them.
- Imagery: none required at launch. If photos are added later, use real society events with consent. Avoid clichéd stock handshakes and avoid images of the Prophet's Mosque as decoration.
- Favicon and app icon: the arch alone, simplified to 7 blocks at small sizes.

Voice

Warm, confident, practical. Short sentences. Benefits before features. Never hype, never religious sermonising; values are expressed through the four words: cooperation, trust, excellence, benefit.

6 Approved copy

Use this copy verbatim. Arabic is provided for every string; do not machine-translate.

Vision, mission, promise

English

Arabic

Vision: Every graduate in the Kingdom, Saudi or international, turns what they know into livelihoods, ventures and shared benefit.

الرؤية: أن يتحوّل علم كل خريج في المملكة، سعوديًا كان أو دوليًا، إلى رزقٍ ومشاريع ونفعٍ مشترك.

Mission: Connect graduates with each other and with businesses through weekly gatherings, practical training and real work, so that trust turns into jobs, contracts and companies.

الرسالة: نربط الخريجين ببعضهم وبالمنشآت من خلال لقاءات أسبوعية وتدريب عملي وعمل حقيقي، ليتحوّل التعارف إلى وظائف وعقود وشركات.

Meet the right people. Build real things. Get hired, get clients, or get funded.

تعزّف على الأشخاص المناسبين. ابن مشاريع حقيقية. احصل على وظيفة أو عملاء أو تمويل.

Values

English

Arabic

Cooperation: Members give first; business follows.

التعاون: يبادر الأعضاء بالعطاء، ثم تأتي الأعمال.

Trust: Members are vetted, commitments are kept, referrals are honest.

الأمانة: أعضاء موثوقون، والتزامات محفوظة، وإحالات صادقة.

Excellence: Fewer things, done well.

الإتقان: أعمال أقل، مُتقنة أكثر.

Benefit: Every activity creates a skill, a contact, a job or a deal.

النفع: كل نشاط يثمر مهارة أو علاقة أو وظيفة أو صفقة.

Three pillars

English

Arabic

Cooperation: Mixed teams of Saudi and international graduates working side by side.

التعاون: فرق مشتركة من الخريجين السعوديين والدوليين تعمل جنبًا إلى جنب.

Innovation: Real business challenges turned into tested solutions and new ventures.

الابتكار: تحويل تحديات الأعمال الحقيقية إلى حلول مجرّبة ومشاريع ناشئة.

Integration: One professional community connecting talent with the Saudi market.

التكامل: مجتمع مهني واحد يربط المواهب بسوق العمل السعودي.

Nine programmes

English	Description	Arabic	الوصف
Business English training	Meetings, emails, presentations and negotiation	التدريب على الإنجليزية للأعمال	الاجتماعات والمراسلات والعروض والتفاوض
Workplace Arabic	For international graduates entering Saudi workplaces	العربية لبيئة العمل	للخريجين الدوليين في بيئة العمل السعودية
Financial literacy workshops	Budgeting, saving and Islamic finance basics	ورش الثقافة المالية	الميزانية والادخار وأساسيات التمويل الإسلامي
Weekly networking and keynotes	Guest speakers from business and government	لقاءات تواصل أسبوعية ومحاضرات	متحدثون من قطاعي الأعمال والحكومة
Mentorship	Graduates paired with experienced professionals	الإرشاد المهني	ربط الخريجين بمهنيين ذوي خبرة
Career readiness	CV reviews, interview practice and LinkedIn profiles	الجاهزية المهنية	مراجعة السيرة الذاتية والتدريب على المقابلات
Startup clinic	Idea validation, pitch coaching and funding routes	عيادة الشركات الناشئة	اختبار الفكرة والتدريب على العرض ومصادر التمويل
Talent directory	Vetted graduates that businesses can hire or contract	دليل المواهب	خريجون موثوقون يمكن للمنشآت توظيفهم أو التعاقد معهم
Hiring events	Employers meet and interview graduates on the spot	فعاليات التوظيف	لقاءات تجمع المنشآت بالخريجين لإجراء المقابلات مباشرة

Six-week challenge cycle

English	Arabic
A business brings a real challenge	تطرح منشأة تحديًا حقيقيًا
Mixed teams form and research it	تتشكّل فرق مشتركة وتدرسه
Teams build and test a solution	تبني الفرق حلاً وتختبره
Teams pitch, and the business adopts the best	تعرض الفرق حلولها وتتبني المنشأة الأفضل

Member journey

English	Arabic
Join: Apply and build your profile	انضم: قدّم وأنشئ ملفك
Learn: Take the training you need	تعلم: احصل على التدريب المناسب
Connect: Attend events, meet a mentor	تواصل: احضر الفعاليات والتقى مرشدك
Build: Join a challenge team	ابن: انضم إلى فريق تحدّي
Earn: Get hired or win clients	اكسب: احصل على وظيفة أو عملاء
Lead: Mentor others, run a circle	قُد: أرشد غيرك وقُد حلقة

Graduates page

English

Arabic

Your degree is the start. Your network is the next step.	شهادتك هي البداية، وشبكة علاقاتك هي الخطوة التالية.
Join a community of Saudi and international graduates who learn, build and grow together.	انضم إلى مجتمع من الخريجين السعوديين والدوليين يتعلمون وبنون وينمون معًا.
Weekly networking: Meet graduates and professionals from across the Kingdom.	تواصل أسبوعي: تعرّف على خريجين ومهنيين من أنحاء المملكة.
Practical training: Business English, Workplace Arabic and financial literacy.	تدريب عملي: الإنجليزية للأعمال والعربية لبيئة العمل والثقافة المالية.
A personal mentor: Guidance from an experienced professional.	مرشد مهني: توجيه من مهني صاحب خبرة.
Real projects: Solve business challenges and build your portfolio.	مشاريع حقيقية: حل تحديات الأعمال وبناء ملف إنجازاتك.
Jobs and clients: Hiring events and a place in our talent directory.	وظائف وعملاء: فعاليات توظيف ومكان في دليل المواهب.
Startup support: Test your idea, practise your pitch, find funding routes.	دعم الشركات الناشئة: اختبر فكرتك وتدرّب على العرض وتعرّف على مصادر التمويل.
Who can join: Saudi graduates; international Muslim graduates in the Kingdom; final-year university students.	من يمكنه الانضمام: الخريجون السعوديون؛ الخريجون المسلمون الدوليون في المملكة؛ طلاب السنة الجامعية الأخيرة.
Good to know: Free places for students and job seekers; women's circles led by women; levels that reward your contribution.	معلومات مهمة: مقاعد مجانية للطلاب والباحثين عن عمل؛ حلقات نسائية بقيادة نسائية؛ مستويات تقدّر إسهامك.
Apply to become a founding member	قدّم طلب العضوية التأسيسية

Universities page

English

Arabic

Give your students a direct path from campus to career.	امنحوا طلابكم طريقًا مباشرًا من الجامعة إلى سوق العمل.
Host an East to West chapter and connect your students with training, mentors and employers, at no cost to your university.	استضيفوا فرعًا لجمعية الشرق إلى الغرب، واربطوا طلابكم بالتدريب والمرشدين وجهات التوظيف دون أي تكلفة على الجامعة.
What we bring: student-led chapter; skills training; career readiness; real business challenges; mentors and speakers; hiring events on campus.	ما نقدّمه: فرع جامعي بقيادة الطلاب؛ تدريب على المهارات؛ الجاهزية المهنية؛ تحديات أعمال حقيقية؛ مرشدون ومتحدثون؛ فعاليات توظيف في الحرم.
What we ask: a regular meeting space; a career-centre or faculty liaison; promotion to your students; co-branding on campus events.	ما نطلبه: قاعة للقاءات الدورية؛ منشق من مركز التوجيه أو الكلية؛ التعريف بالجمعية لدى الطلاب؛ مشاركة الشعار في الفعاليات الجامعية.
Your university gains: stronger graduate employment; new industry partnerships; engaged students across nationalities; outcomes you can report.	مكاسب الجامعة: فرص توظيف أفضل للخريجين؛ شراكات جديدة مع القطاع الخاص؛ طلاب متفاعلون من جنسيات متعددة؛ نتائج قابلة للقياس والتقرير.

English

Arabic

Steps: Meet, Agree, Launch, Report.

الخطوات: لقاء، اتفاق، إطلاق، تقرير.

Host a campus chapter

استضيفوا فرعًا جامعيًا

Sponsors page

English

Arabic

Invest in the Kingdom's next generation of talent.

استثمروا في الجيل القادم من الكفاءات في المملكة.

Sponsor programmes that turn graduates into employees, entrepreneurs and partners, and see the results.

ارعوا برامج تحول الخريجين إلى موظفين ورؤاد أعمال وشركاء، وتابعوا نتائجها.

Why sponsor: first access to talent; brand visibility; national impact (youth and women's employment); measured results.

لماذا ترعون الجمعية: الوصول المبكر للكفاءات؛ حضور للعلامة التجارية؛ أثر وطني (توظيف الشباب والمرأة)؛ نتائج قابلة للقياس.

Options: programme sponsor; hiring event sponsor; chapter patron; scholarship sponsor; keynote series sponsor; summit partner.

فرص الرعاية: راعي برنامج؛ راعي فعالية توظيف؛ راعي فرع؛ راعي المنح؛ راعي سلسلة المحاضرات؛ شريك الملتقى.

Every sponsor receives: logo on events and materials; a speaking opportunity; access to the talent directory; a written impact report.

يحصل كل راعٍ على: الشعار في الفعاليات والمواد؛ فرصة للتحدث؛ الوصول إلى دليل المواهب؛ تقرير أثر مكتوب.

What we report back: graduates trained, jobs and contracts created, challenges solved and event reach, every quarter.

ما نرفعه لكم من نتائج: عدد الخريجين المدربين، والوظائف والعقود المحققة، والتحديات المحلولة، ومدى وصول الفعاليات، كل ربع سنة.

Become a founding sponsor

كونوا من الرعاة المؤسسين

Businesses page

English

Arabic

Meet talent. Share your expertise. Grow your business.

تعرفوا على الكفاءات، وشاركوا خبرتكم، وطوروا أعمالكم.

Networking: weekly Business Circle meetings; one seat per industry; referrals from member businesses.

التواصل: لقاءات أسبوعية لدائرة الأعمال؛ مقعد واحد لكل قطاع؛ إحالات من المنشآت الأعضاء.

Keynote speaking: share your expertise on stage; inspire graduates and peers; position your brand as a leader.

المحاضرات الرئيسية: شارك خبرتك على المنصة؛ ألهم الخريجين والزلاء؛ عزز مكانة علامتك التجارية.

Hiring: hiring events and on-the-spot interviews; access to the talent directory; challenge cycles as extended interviews.

التوظيف: فعاليات توظيف ومقابلات مباشرة؛ الوصول إلى دليل المواهب؛ دورات التحدي كمقابلات عملية ممتدة.

Bring us a real challenge: Mixed graduate teams work on your problem for six weeks and present tested solutions. You meet future hires while they work.

اطرحوا علينا تحديًا حقيقيًا: تعمل فرق مشتركة من الخريجين على مشكلتكم لستة أسابيع وتعرض حلولًا مجربة، وتتعرفون خلالها على موظفيكم المستقبليين.

Take your seat at the table. Seats in each industry are limited.

احجزوا مقعدكم. المقاعد في كل قطاع محدودة.

7 Forms

One form component with four modes. All labels, hints and errors exist in both languages. Required fields are marked. Include a hidden honeypot field and rate limiting. On success, show a bilingual confirmation and send an acknowledgement email (template in both languages).

Mode	Fields
Graduate membership	Full name*; email*; mobile (Saudi format +966 validated, international allowed)*; city*; nationality*; status* (graduate / final-year student); university*; field of study*; graduation year*; languages; interests (multi-select from the nine programmes)*; preference for women's circle (optional, shown to all, never required); LinkedIn URL; 'How can you contribute?' (short text)
University partnership	Institution*; contact name*; role*; email*; phone*; city*; interest* (campus chapter / training / hiring event / challenge cycle); preferred semester; message
Sponsorship	Company*; contact name*; role*; email*; phone*; sector*; options of interest* (multi-select from six options); budget range (optional, 'prefer to discuss' default); message
Business collaboration	Company*; contact name*; role*; email*; phone*; sector*; roles* (networking / keynote speaking / hiring / bring a challenge); hiring needs (if hiring); message

Consent (all modes): a required checkbox: "I agree that East to West Development Society may store and use these details to respond to my enquiry, as described in the Privacy page." / أوافق على أن تحفظ جمعية الشرق / إلى الغرب للتنمية هذه البيانات وتستخدمها للرد على طلبي، وفق ما هو موضح في صفحة الخصوصية. Collect only these fields. Comply with Saudi Arabia's Personal Data Protection Law; the owner will confirm the privacy wording with an adviser.

Storage: write submissions to a database table per mode (Supabase or equivalent) and email a notification to the owner address from an environment variable. Provide a CSV export script. No third-party trackers on form pages.

8 Technical stack and architecture

Concern	Choice
Framework	Next.js (App Router), TypeScript, React Server Components by default
Styling	Tailwind CSS with CSS variables from section 5; use logical properties (ms-, me-, ps-, pe-, start, end) so RTL mirrors automatically
Internationalisation	next-intl; locales en and ar; <code>dir</code> and <code>lang</code> set on <code><html></code> ; all strings in <code>/messages/en.json</code> and <code>/messages/ar.json</code>
Motion	Framer Motion (Motion) for component reveals; GSAP + ScrollTrigger only for pinned and scroll-linked scenes (scenes 4, 6, 7, 8). Load GSAP lazily on those sections only
Smooth scrolling	Optional Lenis on desktop only; disabled for reduced motion and touch devices
Forms	React Hook Form + Zod; server actions; Supabase (or equivalent) for storage; Resend (or equivalent) for email
Content	Typed content files in <code>/content</code> (programmes, events, chapters) so a CMS can be added later without refactoring

Concern	Choice
Fonts	next/font with Reem Kufi and IBM Plex Sans Arabic
Analytics	Privacy-friendly, cookieless (for example Plausible), enabled via environment variable
Hosting	Vercel; preview deployments per branch
Quality	ESLint, Prettier, Playwright end-to-end tests for both locales, Lighthouse CI

Suggested structure

```
app/
  [locale]/
    layout.tsx          # sets lang/dir, fonts, header, footer
    page.tsx            # home scroll story
    about/ programmes/ graduates/ universities/ sponsors/ businesses/
    events/ chapters/ join/ contact/ privacy/
    api/ (if needed)
  components/
    brand/Arch.tsx, archGeometry.ts, Wordmark.tsx
    scenes/Hero.tsx, TwoShores.tsx, Pillars.tsx, Flywheel.tsx,
      Programmes.tsx, ChallengeCycle.tsx, Journey.tsx, KingdomMap.tsx, FourDoors.tsx
    ui/ BilingualHeading.tsx, Stepper.tsx, Card.tsx, Button.tsx, LanguageSwitch.tsx
    forms/ JoinForm.tsx (modes), schemas.ts
    content/ programmes.ts, events.ts, chapters.ts
    messages/ en.json, ar.json
    public/ og/ (poster images), favicon/
    styles/ tokens.css
```

Brand tokens

Map the CSS variables into `tailwind.config` under `colors` (basalt, palm, frond, date, sage, ink, line) so classes such as `bg-palm-700` work.

9 Quality bar

Area	Requirement
Performance	Mobile Lighthouse ≥ 90 performance; LCP ≤ 2.5 s on 4G; initial JS ≤ 200 KB gzipped; arch SVG inline, no hero image
Accessibility	WCAG 2.2 AA; full keyboard use; visible focus rings (gold); animated diagrams have text equivalents; forms announce errors
Reduced motion	Every scene shows its final state; no pinning or horizontal scroll
RTL	Arabic layout mirrored except the arch and the map; numbers in steps may use Western digits in both languages for consistency (owner to confirm)
Responsive	Designed at 360, 768, 1024, 1440 px; no horizontal page scroll; tables scroll inside their own container
Dark mode	Supported via tokens; respects system setting with a manual toggle
SEO	Per-page bilingual titles and descriptions; hreflang alternates; sitemap.xml; robots.txt; Organization structured data without unverifiable claims

Area	Requirement
Sharing	Open Graph images per page from the poster set in /public/og
Security	Server-side validation, honeypot, rate limit, secrets only in environment variables

10 Motion specification

Token	Value	Use
ease-stone	cubic-bezier(0.22, 1, 0.36, 1)	Blocks settling, cards rising
dur-short	180 ms	Hover, focus
dur-base	420 ms	Reveals
dur-scene	1.8 s max	Hero assembly total
stagger	70 ms	Block and tile sequences
distance	16–24 px	Rise-in offset; never more

No parallax on text. No auto-playing sound or video. Scroll-linked scenes must never trap the visitor: the page always moves with the scroll wheel or swipe.

11 Build phases and acceptance criteria

Phase	Scope	Done when
1. Foundation	Scaffold, tokens, fonts, i18n with RTL, header/footer, language switch, Arch component (static), all routes with placeholder sections	Both locales render every route; <code>dir</code> correct; lint and type checks pass
2. Content pages	About, Programmes, Graduates, Universities, Sponsors, Businesses, Chapters, Events (empty state), Contact, Privacy, 404 with approved copy	All copy from section 6 present in both languages; responsive at four breakpoints
3. Forms	JoinForm with four modes, validation, consent, storage, emails, deep links	Playwright tests submit each mode in both languages; data stored; emails sent in test mode
4. Immersion	Home scroll story scenes 1–10 with motion spec and reduced-motion fallbacks	Visual check at four breakpoints; reduced-motion check; no layout shift from animations
5. Polish and launch	SEO, OG images, analytics, dark mode, Lighthouse CI, accessibility audit	Quality bar in section 9 met; deployment to production domain

12 Placeholders and open items

Use these exact placeholders and list them in the README so the owner can replace them.

Item	Placeholder
Contact email	<code>CONTACT_EMAIL</code> (environment variable)
Phone / WhatsApp	<code>CONTACT_PHONE</code>
Domain	<code>SITE_URL</code>
Social links	<code>SOCIAL_LINKEDIN</code> , <code>SOCIAL_INSTAGRAM</code> , <code>SOCIAL_X</code> , <code>WHATSAPP_COMMUNITY_URL</code> (hide icons when empty)
Founder note	'Founder note coming soon' block on About
Events	Empty state until the owner adds entries in <code>content/events.ts</code>
Partners and sponsors	No logos until confirmed; show 'Founding partners announced soon'
Privacy wording	Draft provided; owner confirms with an adviser before launch

13 Starter prompt for Claude Code

Save this PDF and its Markdown twin (`east-to-west-site-build-brief.md`) in the project folder, then paste this prompt into Claude Code.

```
You are building the website for East to West Development Society (جمعية الشرق إلى الغرب للتنمية).
Read the attached brief "east-to-west-site-build-brief.pdf" completely before writing any code.
The Markdown twin "east-to-west-site-build-brief.md" has identical content; copy all
Arabic strings from the Markdown file, because PDF text extraction can distort Arabic.

1. Summarise the brief back to me in 10 bullet points and list any questions.
2. Propose the file structure, then scaffold the project exactly as specified in section 8.
3. Build in the phases in section 11. Stop at the end of each phase, run the checks listed
   for that phase, and tell me what to review before continuing.
4. Use only the copy in section 6. Never invent statistics, partners, testimonials,
   licences or contact details. Where content is missing, use the placeholders in section 12.
5. English and Arabic must both be complete. Arabic pages are right-to-left.
6. Respect prefers-reduced-motion everywhere.
```
